## New Goods Coming in Every Day at

Some merchants are complaining of dull sales. Not so with us. We sell furniture and other housefurnishings all over the Panhandle and the people of this splendid trade territory are showing their appreciation of our credit terms at cash prices and our Installment House furnishing business continues to grow.

THREE TIMES IN THREE YEARS WE HAVE HAD TO FIND LARGER QUARTERS and now our new 23,000 square feet of floor space is crowded with goods and already the boys in the store are beginning to ask when will we give them enough room.

The rich as well as those of moderate means use our easy payment plan and we hold the proposition of any size bill of goods you want on terms of one tenth cash and the balance in 9 monthly payments without interest, o pen to all and on every kind and sort of goods.

We will cut lenoleum into circles and sell to you on these liberal terms if that is what you want and the way you want it. We have almost anything you need and invite you to open a charge account with this company and to make liberal use of the credit you so justly deserve.

# DISTRICT COURT

GRAND JURY RENDERS FIN-AL REPORT OF TERM'S WORK

session since January 13, the January term of the Forty-seventh District Court adjourned yesterday aft-The session has been busy one, making a new record to the number of cares of a special nature considered and dispatched.

Judge Browning, instrict Attorney Bishon and Court Reporter A. M. Mood will leave for Claude, where the regular term of court opens Monday for a session of two weeks Before adjournment yesterday the following report was made by grand inty:

> also began to gallone in ten hours The plant is almost fool proof, and seems incredible that \$4,000 gallons of water can be obviated to such i reight for such a small expense, but, I there are any doubting Thomases. es them come to disreford and see

First Eighty-Acre Plant at Hereford. The first x0-acre irrigation plant is he completed here was started to and today. This plant is located on A McDonald Tract, and is just one ofth. wile south of the depot. The plant he such a vashped with a fif-horsepower harving engine, and produces and per minute. This is the qualitiest. McDonald type of well to in installed here, and in really it be form of an experiment. Several store of source tracts are figuring o making orders for this style phot
